Objective

I not only focus on how to build and run code but also pay attention to how its process runs. I want to find a good environment to learn, share, grow and express myself. I am going to try my best to improve my technique. My goal is to become a technology leader and deepen advance about the diversity of Spring framework.

Professional summary

- 2 years of experience in professional software development and web application development.
- Ability to work under pressure and manage tasks with less supervision.
- Eager to learn new knowledge technologies
- Have skills at solving problems, testing, deploying.
- Good at communication, interpersonal skill. Confident and friendly with customers and colleagues.

Education

POSTS AND TELECOMMUNICATIONS INSTITUTE OF TECHNOLOGY, HO
CHI MINH CITY

08/2016 - NOW

Information Technology
Major: Software Engineer

Work experience

COMPANY: MWG (THE GIOI DI DONG)

09/2019 - 10/2021

Java Backend Developer

FPT TELECOM

10/2021 - now

Java Developer

Technology and software development skills

Programing Language

Java

Technology & Framework

Spring MVC, Spring Boot

Elasticsearch (Search Engine)

RabbitMQ

Kafka

JDBC, Hibernate, JPA

Docker

Database System

Postgres

MSSQL

Oracle

OrientDB (NoSQL)

Software Design

Unified Modelling Language

Design patterns

Analysis and design

Development Tool

IDE: Eclipse, IntelliJ IDE, STS4

Project List

PROJECT AT FPT TELECOM

Order Transaction Service (10/2021 - present)

Project Description:

- Develop a web service backend system for the mobile world.
- Order processing.

Responsibilities:

- Build, Design, Develop feature

Programming Languages:

- Java

Tools:

- Maven

Platform, server, and database:

- Windows, Tomcat, PostgresDB, MongoDB

Used technologies:

- Microservice Pattern – Orchestration Saga Pattern With Spring Boot + Kafka
- Springboot framework, Spring Data JPA.

Monitor Log Service(11/2021 - 02/2022)

Project Description:

- Addition the feature of recording error codes through services.
- Web application manages internal information of the company such as news projects.

Responsibilities:

- Build, Design, Develop features, and fix bugs

Programming Languages:

- Java

Tools:

- Maven

Platform, server, and database:

- Windows, Tomcat, MongoDB

Used technologies:

- Spring, RabbitMQ, Java Core

PROJECT AT MWG (THE GIOI DI DONG)

Worker Service (02/2020 - 10/2021)

Project Description:

- Build a core system to synchronize data from oracle to Elasticsearch and OrientDB for website TGDD and DMX

Responsibilities:

- Review and update source code.
- New feature development.

Programming Languages:

- JavaTools:
- MavenPlatform, server, and database:
- Windows, Tomcat, Oracle, OrientDB (NoSQL), Elasticsearch (Search Engine)

Used technologies:

- Spring, RabbitMQ, Java Core.

API Webservice E-commerce (09/2019 - 5/2021)

Project Description:

- take part in supporting writing api for website TGDD and DMX

Responsibilities:

- Review and update source code.
- New feature development.

Programming Languages:

- Java Tools:
- Maven Platform, server, and database:
- Windows, Tomcat, Oracle, OrientDB (NoSQL), Elasticsearch (Search Engine)

Used technologies:

- Spring, RabbitMQ, Java Core.
